Course Objectives	This course is designed to increase students' awareness of "Pakistan in the Global Village" in the 21st Century. This course aims to strengthen students' knowledge about the creation of Pakistan, the leaders who struggled for it during the freedom movement and strived for its progress after its emergence. This goal will be achieved through objective study and analysis of the history, geography, demographics, culture, politics, and economics of Pakistan. Students will also do comparative analyses of various internal and international aspects of Pakistan that will enhance their understanding of the significance of Pakistan in the "Global Village".
--------------------------	---

No.	Assigned Program Learning Outcome (PLO)
1	Students will be able to demonstrate a comprehensive understanding of Pakistan's ideology, history, culture, and social structure, and critically analyze the country's historical evolution, development trajectory, and contemporary challenges.
2	Students will be able to critically evaluate Pakistan's political trajectory and framework, economic system, social development, and environmental challenges and assess Pakistan's role in regional and global affairs.
3	Students will be able to develop and apply research, critical thinking, and analytical skills to investigate key issues related to Pakistan's governance, development, and public policy, and communicate informed perspectives effectively.

A = Assignment, Q = Quiz, M = Midterm, F=Final, P=Presentation, WR=Written Report. S= Simulation
